

REMIND is a website and app that allows schools/counselors to reach and engage with students. Our counselors will be using this app as one more platform to send you important information.

We strongly recommend, if you have not already, to sign up for REMIND. Through REMIND, counselors will be sending important information like class meetings, testing dates, summer programs, college information, scholarship opportunities, among other important information we think you should know.

Join by texting your class code to **81010** (make sure you choose your correct cohort):
